

HEAVY DUTY JIB

"Star Attachments Turn a Forklift into a Whole Fleet of Equipment"

Extend the Reach of Your Forklift

- **FARTHER**
- **HIGHER**
- **OVER OBSTRUCTIONS**

Model 1360B

TELESCOPES TO 12 FT.

Expand the Capabilities of your Forklift

- Reach over or under obstructions to place heavy loads
- Set equipment on the roof or elevated decks
- Reach through narrow openings such as windows to set or pick up a load
- Load and unload trucks easier and more safely
- Reach into motor freight vans to load or unload materials and equipment
- Load, move, and handle equipment in your equipment yard
- Reach over scaffold to set stone or other heavy masonry units
- Hang trusses and laminated wood beams

Specifications

- Designed for use on both straight-mast and extendable-reach type forklifts
- Telescoping two section tubular steel boom.
- Manually telescopes from 7'0" to 12'0" - Pull spring-loaded pin to telescope - release pin and boom locks in desired position.
- Internal stop ensures telescoping section can not be accidentally pulled all the way out.
- Jib slides on the forks and is pinned behind the heel to secure it to the forklift.
- Universal fit (slip-on-the-forks) design permits use on most all forklifts.
- One swivel hook is included.
